

INVOCATION AND BLESSING - I

West Point Society Luncheon

Transcendent Perfection, Eternal Master, Royal Love, be among us here and remain with us.

Fill us with the power of your Divine Spirit so that through our silent work all creatures may know that you are God, that in you life originates, that from you life persists, that to you life drives and that for you life expands.

Enable us to fulfill the missions upon which you have sent us as ladies and gentlemen, as Graduates, family and friends of West Point, as serving and retired Officers of the United States of America, as civilian leaders and as citizens of this great nation.

Draw and hold to your heart all who have gone before and all who now serve at personal risk to protect our beloved land from those who would destroy her.

And may all creatures have food from you to nourish their bodies, to harden their minds and to soften their hearts. Amen
